Base material - Stainless Steel Strike Plate & Face Plate
Finish : SS Matt /Antique Bronze

EDL 010

High Security Single/Double Door Nightlatch,
Triple Locking Bolts, 5 Computerised Brass Keys,
Base material - Stainless Steel Body & Face Plate
Finish : SS Matt /Antique Bronze
Application: Best Suitable for Main Doors

Routing Tool

It is a Tool used for making holes in wooden doors for
Lock Bodies, Concealed Doorclosers, Concealed Hinges,
Automatic Dropdown Door Seals and various other items.

Advantages:

- Cuts a hole for both Lock body and face-plate
- Fast and Accurate, saves you time and money
- It has Vertical guides and Height & Depth setting which means that you will not drill deeper or higher on the door than actually required

*3 Drilling Bit Dia available - 30mm, 24mm, 20mm

EDC 001

Exposed Door Closer, Standard Arm, Adjustable closing and latching speed, Size 2-3 (Max. Door Leaf weight upto 60kg), Base Material - Aluminium.
Application: Mainly used in Public, Commercial and Residential Buildings and where circumstances make their use more desirable. Used for Exterior as well as Interior Doors to facilitate exceptionally strong closing forces and is ideal to use with normal doors.
Finish : SS Matt / Brown

EDC 002

Exposed Door Closer with Built in 90° Holdopen Setting, Standard Arm, Adjustable closing and latching speed, Size 3-4 (Max. Door Leaf weight upto 100kg), Base Material - Aluminium
Application: Mainly used in Public, Commercial and Residential Buildings and where circumstances make their use more desirable. Used for Exterior as well as Interior Doors to facilitate exceptionally strong closing forces and is ideal to use with heavy doors.
Finish : SS Matt/ Polished Chrome/ Gold Plated/ Antique Bronze

EDC 003

Exposed Door Closer, Standard Arm, Adjustable closing and latching speed, with Back Check and Delay Action features, Size 2-6 (Max. Door Leaf weight upto 150kg), Base Material - Aluminium
Application: Used for Large Doors such as Main Entrance Doors, Metal Doors and other very heavy doors
Finish : SS Matt / Brown

EDC 007

Pelmet (Slide Channel) Arm with Hold Open Feature, which can be installed on EDC 001,002 and 003 series doorclosers, Base Material - Aluminium
Application: Used as a Substitute to the Standard Arm in Exposed Door closers as they look neater and take less space after installation
Finish : Silver

EDC 004A (Slim 27mm - 50kg) / EDC 004B (32mm - 60kg)

Concealed Door Closer, Holdopen Arm, Adjustable closing and latching speed, Size 2-3 (Max. Door Leaf weight upto 60kg), Base Material - Aluminium

Application: These Doorclosers get concealed into the door and are not visible when the door is closed and thus make the door look much cleaner and neater as compared to surface mounted doorclosers.

EDC 005

Concealed Door Closer, Holdopen Arm, Adjustable closing and latching speed, Size 3-4 (Max. Door Leaf weight upto 100kg), Base Material - Cast Iron

Application: These Doorclosers get concealed into the door and are not visible when the door is closed and thus make the door look much cleaner and neater as compared to surface mounted doorclosers.

EDC 006

Automatic Exposed Door Closer, Standard Arm, Adjustable closing and latching speed, Size 2-4 (Max. Door Leaf weight upto 80kg), with remote controller, with electric lock, push pad switch for opening, access control box & Micro Wave Sensor, Base Material - Aluminium

Application: These doorclosers are used in high traffic areas such as Airports, Shopping Malls, Hospitals etc and in Handicapped Friendly areas as they open and close automatically. Also help in energy savings by reducing the Air Conditioning loss.

EDC 007

Both Side Openable Floorspring with 90 degree Hold Open for Wood/Glass Doors with Stainless Steel Cover plate, precision manufactured internal components. Adapts to low temperatures due to antifreeze hydraulic oil.

Max. Door Leaf weight - A upto 80kg
B upto 150kg
C upto 250kg

Application: Used for Wooden Frame as Well as Frameless Glass Doors. A floorspring fits discreetly into the floor and is completely concealed. Easy operation and good holding forces. Ideal for heavy daily use.

EDC 008

Wooden Door Accessory Set (2 pcs)
for Floorspring (All Sizes)

EDC 009

Both Side Openable Hydraulic patch with 90 degree Hold Open in which no cutting of floor is required.

Max. Door Leaf weight - 60kg

Application: Suitable for Frameless Glass Doors, this is a new generation floor spring in which no cutting of floor is required. Very Easy installation procedure. Can be used in new as well as existing homes and offices without much civil work and hassle.

EDC 010

Both Side Openable Floorspring with 90 degree Hold Open in which no cutting of floor is required.

Max. Door Leaf weight - 60kg

Application: Suitable for Wooden Frame Doors, this is a new generation floor spring in which no cutting of floor is required. Very Easy installation procedure. Can be used in new as well as existing homes and offices without much civil work and hassle.

Weatherproof

Application : These Seals can be used in Doors and Windows to prevent dust, water, air, sound and pests from coming in. They are also used in Sliding Wardrobes and Cabinets to cover extra gaps and grooves. Moreover these seals help to reduce the sound in doors, windows and wardrobes when two wooden parts hit each other.
