FRICNOBOX with Glass Sides, Side Rail

Size - 500mm (Standard Depth),
Finish - Brilliant White/Stainless Steel,
Load Capacity - 40Kg

Product Application : A fricnobox is a pair of metal drawers sides which can be used to make pullout drawers in any width. The Back, Base and Front panels are made in wood by the end user as per the different carcass widths. These drawer sides are very stable and have impeccable movement as compared to conventional drawers with wooden sides. Can Be used in Kitchens, Wardrobes, TV Units, Office Furniture etc

**with Special Anti Bump Feature on complete extension
